1 Product Overview

The **Aura Flow** represents the evolution of the modern smartphone. In alignment with our *Quiet Living* philosophy, we have stripped away the digital noise to focus on what truly matters: a seamless, fluid interface, a breathtaking visual experience, and a camera system that captures life as you see it.

With its minimalist design and aerospace-grade materials, the Aura Flow is not just a tool—it is an extension of your creative self.

2 Technical Specifications

Category	Details
Price	\$899.00
Display	6.5" OLED, 120Hz LTPO, 2400 x 1080 px
Processor	Aura Zenith Octa-core (4nm Architecture)
Memory	8GB LPDDR5 RAM
Storage	256GB UFS 3.1
Battery	5000mAh (65W Fast Charge / 15W Wireless)
Network	5G (Sub-6GHz & mmWave), Wi-Fi 6E, BT 5.2
Build	Gorilla Glass Victus front/back, Aluminum frame

3 Display Experience

The Aura Flow features a 6.5-inch OLED display with LTPO technology, allowing the refresh rate to "flow" dynamically from 1Hz to 120Hz based on your content.

- **Quiet Mode (Always-on Display):** Shows essential notifications and time with minimal power consumption.
- **TrueColor Calibration:** Each panel is factory-calibrated for DCI-P3 color accuracy, ideal for professional photography and cinema.
- **Eye Comfort:** Integrated hardware-level blue light filtering helps maintain your circadian rhythm.

4 Camera System Guide

Our Triple Camera System is designed to capture the world with cinematic depth and clarity.

4.1 Lens Configuration

1. **50MP Main (Wide):** f/1.8 aperture, Optical Image Stabilization (OIS).
2. **12MP Ultra-Wide:** 120-degree field of view, f/2.2.
3. **8MP Telephoto:** 3x Optical Zoom, f/2.4 with OIS.

4.2 Professional Shooting Modes

Zenith Night Mode: Uses AI-driven multi-frame synthesis to pull light from the darkness without creating artificial noise.

Cinematic Flow: Records 4K video at 24fps or 60fps with advanced stabilization that mimics a physical gimbal.

Pro Raw: Capture images in 12-bit RAW for maximum flexibility in post-processing.

5 Connectivity 5G

The Aura Flow is built for the future of hyper-connectivity.

5.1 5G Network Usage

Aura Flow supports global 5G bands. To ensure the best experience:

- **Smart Data Mode:** Automatically switches between 4G and 5G to save battery life when high speeds are not required.
- **Dual SIM:** Supports one physical Nano-SIM and one eSIM for seamless international travel.

5.2 Wi-Fi 6E Bluetooth

Experience near-zero latency with Wi-Fi 6E. Pair your Aura Harmony headphones via the Bluetooth menu for high-fidelity aptX Adaptive audio.

6 Performance Security

6.1 System Fluidity

With 8GB of high-speed RAM and the Aura Zenith chipset, the Flow handles intensive multi-tasking with ease. The "Flow Engine" prioritizes resources for your most-used apps.

6.2 Security Features

- **Under-Display Fingerprint:** Ultrasound sensor works even if fingers are damp.
- **3D Face Unlock:** Uses an IR sensor for secure authentication in low light.
- **Aura Vault:** An encrypted partition for your sensitive documents and photos.

7 Battery Charging

7.1 Power Management

The 5000mAh battery is designed to last over 36 hours of typical use.

- **Fast Charging:** Use the included 65W charger to reach 50% in 18 minutes.
- **Reverse Wireless Charging:** Charge your Aura Pulse or Harmony by placing them on the back of the phone.

8 Maintenance System Settings

8.1 Device Care

- Use a soft cloth to clean the screen. Avoid abrasive materials.
- Keep the charging port free of dust and lint.
- **IP68 Protection:** While the phone is water-resistant, we recommend avoiding salt water and chemicals.

8.2 System Updates

Navigate to *Settings > System > Software Update* to receive the latest security patches and feature enhancements.

9 Frequently Asked Questions

Q: Does the Aura Flow support expandable storage?

The Flow comes with a generous 256GB of internal storage. It does not support microSD cards to maintain its slim, water-resistant design.

Q: How do I activate 5G?

5G is active by default if your carrier supports it. Check status in *Settings > Network > Mobile Data*.

Q: Can I use the camera underwater?

The IP68 rating allows for submersion up to 1.5m for 30 minutes, but we recommend using a specialized housing for underwater photography to protect the seals.

Q: How many years of updates will I receive?

Aura Flow is guaranteed 4 years of major OS updates and 5 years of security patches.

Q: Is the battery user-replaceable?

No. For safety and water-resistance, please visit an authorized Aura service center for battery replacement.

10 Safety Warranty

Safety: Do not puncture or expose the battery to fire. Use only Aura-certified charging cables to prevent overheating.

Warranty: Aura provides a 24-month limited warranty. This covers hardware malfunctions and manufacturer defects. Screen damage from drops is not covered under the standard warranty but is eligible for Aura Care+ plans.
