# 1 Product Overview

The **Aura Breeze** is designed to be the invisible guardian of your home. In line with the *Quiet Living* philosophy, it provides medical-grade air filtration without the intrusive noise of traditional purifiers. By removing 99.97% of particles, the Breeze ensures that your living space remains a sanctuary for both your lungs and your peace of mind.

# 2 Technical Specifications

Category	Details
Price	\$499.00
Filtration	H13 True HEPA + Activated Carbon
Coverage	Up to 800 sq ft (75 m <sup>2</sup> )
CADR	400 m <sup>3</sup> /h
Noise Level	22dB (Sleep) – 52dB (Turbo)
Power	45W
Dimensions	280 x 280 x 530 mm

# 3 HEPA Filtration System

The Breeze utilizes a 3-stage filtration process:

1. **Pre-Filter:** Captures large dust, lint, and pet hair.
2. **H13 True HEPA Filter:** Traps 99.97% of airborne particles as small as 0.3 microns, including pollen, mold spores, and fine dust.
3. **Activated Carbon Layer:** Neutralizes odors, smoke, and Volatile Organic Compounds (VOCs).

# 4 Smart Control & Air Quality Sensor

The integrated laser sensor monitors the air in real-time. The LED ring on the display indicates air quality:

- **Blue:** Excellent (0-12 µg/m<sup>3</sup>)
- **Green:** Good (13-35 µg/m<sup>3</sup>)
- **Orange:** Moderate (36-55 µg/m<sup>3</sup>)
- **Red:** Poor (>55 µg/m<sup>3</sup>)

## 5 Maintenance & FAQ

---

### 5.1 Filter Replacement

The filter should be replaced every 6–12 months. The "Filter" indicator will flash when replacement is needed.

**Q: Can I wash the HEPA filter?**

No. Washing the filter will damage the fibers. Only the Pre-Filter may be lightly vacuumed.

**Q: Is it safe to leave on 24/7?**

Yes, Auto Mode optimizes energy usage and ensures constant protection.
